# Next Steps

Based on all the feedback received from this round of outreach, in addition to the opportunities and constraints of the site, and the guidelines from the BPRD Design Standards for neighborhood parks, a *preferred conceptual park design* will be created.

Once completed this summer, the preferred conceptual park design will be added to the project webpage, update notifications will be sent to project stakeholders, and staff will present the design to the BPRD Board of Directors for approval.

Please refer to the project website to find the latest project updates or to submit additional feedback.
