residents report that they **feel welcome (92%) and safe (93%)** when using BPRD spaces

most residents (67%) believe the **district uses taxpayer funds responsibly** and feel that **the amount they pay toward recreation services is appropriate**

METHODOLOGY

Sample set aligned with the resident population within the District based on 2024 American Community Survey data. Interviews were conducted with live interviewers by phone and online. Respondents in all modes chose their preferred language, English (98%) and Spanish (2%). Security measures precluded individuals from completing the survey more than once.
